Alex,

It has come to my attention that Sergeant Fausto threatened Officer Yeomans prior to his testimony before the investigators looking into the police department problems

This would be at least two felony crimes, 1. interfering in an investigation and 2. Intimidating or threatening a witness. This was immediately reported to the investigators.

I am asking that under department policy P-448.4 (d) Sergeant Fausto be place under administrative suspension and the matter be turn over to outside law enforcement authority for investigation.

This is a regularly use policy in the Quartzsite Police Department and should be followed in this case. It is important the investigation proceed without any further interference.

Sincerely,

Ed Foster  
Mayor
